SUMMARY

Experienced SQA with 1 year in Scrum Agile teams performing functional/non-functional, regression, manual, and automation testing. Proficient in WebDriverIO, Cypress, and Katalon Studio. Track bugs, verify reports, and ensure project success.

EXPERIENCE

Software Quality Assurance – Internship Imperial Healthtech

December 2022 – June 2023, Semarang, Central Java (Remote)

- Achieved 95% test coverage for the Bukubumil App & Medminutes.io App using Qase.io.
- Ensured every feature in the Bukubumil App such as Media Artikel, Audio & Video, Feed & Group Community for women and pregnant women, etc. Operates correctly based on the documented flow and design.
- Create automation test scripts for the medminutes.io app using the flutter testing framework and refactor invalid or failed automation test scripts.
- Created and assigned bug report tickets in an average time of less than 1 hour.
- Conducted daily Bukubumil App Crashlytics reports through the Slack communication app.

Software Quality Assurance – Internship PT. Kompas Media Nusantara

January 2023 – April 2023, Central Jakarta, DKI Jakarta (Hybrid)

- Collaborated with Squad T in the Technology, Product, and Data Department to developing an interactive CMS (Content Management System) for editors and article writers and developing an interactive online games for users in Tutor Visual (<https://interaktif.kompas.id/>).
- Received an average feedback score of 9 out of 10 from developers and UI/UX designers for the QA pairing process, indicating a high level of effectiveness and collaboration.
- Maintained a customer satisfaction rate of 95% by ensuring that every feature of the CMS Interactive system works correctly, providing a seamless user experience.
- Performing Android regression testing for the Kompas.id App every 2 weeks in the QE department.
- Achieved a 99% UAT case pass rate for the interactive CMS, indicating high user satisfaction and acceptance.

Quality Assurance – Freelance

PT. Qatros Teknologi Nusantara

October 2022 – December 2022, Sleman, Daerah Istimewa Yogyakarta (Hybrid)

- Collaborated with the team as QA in the development of a CMS (Content Management System) for the Healthcare Industry, Bumame Housecall.
- Conducted daily meetings with an average duration of 30 minutes, ensuring effective communication and alignment within the team.
- Ensured that all feature in Bumame CMS, such as Role and User Management, Transaction Payment Code, Lab Partner Registration, and Master Corporate, operates correctly based on the documented flow and design.
- Reported and tracked bugs/defects in an average time of less than 24 hours, ensuring prompt resolution and high-quality product delivery.
- Developed a load testing environment using jmeter for each request on the bumame service.
- Achieved a 95% UAT case pass rate for the Bumame Housecall CMS, indicating high user satisfaction and acceptance.

Software Quality Engineer – Internship

PT. Qatros Teknologi Nusantara

August 2022 – December 2022, Sleman, Daerah Istimewa Yogyakarta (Hybrid)

- Collaborated with the team in developing an android and web-based ERP (Enterprise Resource Planning) system specialized for MSMEs (Micro, Small & Medium Enterprises), Qarpa.
- Conducted daily meetings with an average duration of 30 minutes to discuss Qarpa product development.
- Created detail, comprehensive, and well-structured test plans and test cases.
- Ensured every feature in Qarpa ERP system such as POS (Point Of Sale) & WOM, Shipping for Inventory & Leaves Management, operates correctly based on the documented flow and design.
- Identified and documented bugs in an average time of less than 1 hour.
- Achieved an average defect resolution time of less than 24 hours by reporting and tracking bugs in a timely manner.

EDUCATION
